

Lightweight  
modular panels for  
high-grade vault  
room construction

# Centurion Vault

BURGLARY-RESISTANT PROTECTION

## Key Features

- Centurion vaults are available in grades V-XII. All grades have been approved to provide resistance against explosives and grades IX-XII offer additional protection against diamond core drill bits (optional extras).
- Every grade of Centurion vault has been independently tested by ECB·S and awarded the EN 1143-1 certification for burglary resistance.
- The vault rooms are constructed using lightweight modular panels, making assembly, disassembly and expansion of a room both quick and easy.
- Reduced wall thickness maximises use of the available space.
- An innovative, VdS-approved ventilation system provides optimum climate control (optional extra).
- Every panel is fitted with an upper and lower cable duct as standard.
- The exterior of the vault can be finished with plaster or clad with wood or metal panels (optional extra).

## Product Specifications

Vault Panel	Wall Panel Thickness (mm)	Weight (kg/m <sup>2</sup> )	Max span	Max wgt of vault panel (kg)
			100 kp/m <sup>2</sup>	
Grade V	85	300	3350	603
Grade VI	85	300	3350	603
Grade VII	85	300	3350	603
Grade V	100	360	4000	864
Grade VI	100	360	4000	864
Grade VII	100	360	4000	864
Grade VIII	100	360	4000	864
Grade IX	125	440	5250	1386
Grade IX CD	125	440	5250	1386
Grade X	150	520	5200	1622
Grade X CD	150	520	5200	1622
Grade XI	220	730	5060	2216
Grade XI CD	220	730	5060	2216
Grade XII	280	920	4960	2737
Grade XII CD	280	920	4960	2737

CD denotes protection against diamond core drill bits.

## Testing

Every grade of Centurion vault room panel has been independently tested by ECB+S and certified in accordance with EN 1143-1, the European standard for burglary protection.

This standard covers attacks from a variety of tools, including crowbars, high-powered disc cutters and oxyacetylene torches.
