

Maxi Plastic Storage Bins & Containers

Maxi bins – perfect for small-item storage in your warehouse, workshop, store, office or van fleet. You can easily stack them for desk or assembly bench storage, or to form part of an integrated storage system.

Manufactured from high-grade polypropylene, means in addition to being both water- and oil-resistant, Maxi bins are extremely durable; standing up to continual use in a demanding work environment.

Sizes range from 0.4 litre – 21 litres and are available in four primary colours; Red, Yellow, Blue and Green.

The bins incorporate:

- An angled holder for easy reading of a barcode or other type of label
- Quick fit, lock-in dividers to segment larger bins
- A range of Maxi Hooks that can be clipped onto the louvered panels to store a variety of items, ranging from tools to drive belts.
